Part II.
SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:

Mr. Zanzalari, Applicants' attorney, was contacted to discuss allowable subject matter. In order to put the claims in condition for allowance, the Examiner requested that Applicants amend independent claim 29 to further clarify that "B binds directly to the nitrogen atom on Het" to avoid potential 112/2nd issues as to where B binds on Het. With regards to matters of form, the Examiner further requested that the Markush group of claim 16 be amended to recite "selected from the group consisting of" so as to put the claims in proper Markush format. Additionally, the Examiner noted that for the compound recited on line 3 of claim 23, an extra hyphen was introduced into the nomenclature that should be deleted. Mr. Zanzalari indicated that the amendments with regards to matter of form would be okay, and further thought the amendment to claim 29 to overcome potential 112/2nd issues would be okay, but requested time to review the Specification to confirm that the amendments does not change the scope of the claims as desired by Applicants.

Part III.

- ☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.
☒ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.
